DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I (claims 1,2,7 and 9) in the reply filed on 8/9/07 is acknowledged.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leonard Diana on 8/21/07.

The application has been amended as follows: The specification and claims have been amended as follows:

Allowable Subject Matter

1. Claims 2,7 and 9 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 2,7 and 9 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an image processing apparatus for generating a profile in which information on color conversion between device dependent color space and device independent color space is described, comprising: inputting glossiness information indicating glossiness of an image and describing glossiness information in the profile wherein the glossiness information includes at least one of average glossiness of the image, information indicating relation between an image signal and the glossiness, and glossiness of a non-image portion as recited in claim 2 including all of the other features recited therein. It follows that the corresponding method claim 7 and computer readable medium claim 9 are allowed for the same reasons stated for claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
